Unit 2a Park hall Industrial Estate Gibson Street Tunstall Stoke on Trent ST6 6AQ

# *How to measure your gates/railings*

Step1: measure the height of each post/pillar and make a note of the smallest one this is measurement (A)

Step2: measure the distance between each post/pillar checking that the measurement is the same top and bottom this gives you measurement (B)

**Please check that the ground behind the gates is either level or falls away from the gates thus not restricting the gate opening**

**Always Give us the exact measurements and we will calculate the required sizes to allow for hinges, fittings etc**

**If posts are required give us the outside (maximum) measurement**

**If in any doubt give us a call on 01782 825834**
